Art Unit: 1644

1. Claims 1-3, 5-11, 14-23 are pending.
2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1-3-06 has been entered.

3. Claims 1-3, 5-11, 14 and 21-23 stand provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5, 13-15 and 20-22 of copending Application No. 08/943,771. Although the conflicting claims are not identical, they are not patentably distinct from each other because the '771 pending claims are species claims to the instantly pending claims in the current application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicant has stated the issue fee for 08/943,771 will not be paid and the case will go abandoned. As of 3-16-06 the case is still pending.

The rejection is maintained.

4. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The

Art Unit: 1644

filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 19-20 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1 and 5 of copending Application No. 08/943,771. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Both sets of claims are drawn to the same exact deposited monoclonal antibody, ID3 or an antibody that competes with said antibody.

Applicant has stated the issue fee for 08/943,771 will not be paid and the case will go abandoned. As of 3-16-06 the case is still pending.

The rejection is maintained.

5. Claims 15-18 as currently recited are free of the prior art.
